Quick Reference Guide	40
-----------------------	----

Solaris Paper Pty Ltd, is an Australian operated and managed company that distributes high-quality tissue products to businesses across Australia.

Solaris Paper along with our sister company, The Sorbent Paper Company, is one of the largest paper suppliers in Australia. Solaris Paper focuses on the wholesale products for businesses, while The Sorbent Paper Company focuses on retail for households. Together we employ over 400 staff, with national sales teams and shared executives, key services, and production teams.

In Australia, we have production facilities in Box Hill, Melbourne and in Greystanes, Sydney that include two tissue mills and 9 converting lines. We are supported by our key strategic supply partner, APP (Asia Pulp & Paper) who provide pulp, jumbo rolls and many finished goods from high-capacity mills across Asia.

We are one of the few vertically-integrated companies, owning the sustainable plantations, all the way through to the finished products, which provides control, efficiency, and flexibility.

What this means to our customers, is that we have both global and local scale and servicing right here in Australia.

**APP**

**Strategic Supply Partner**

**Shared Executive team, production & key services with 400+ staff 100,000 m2 production facilities, 2 tissue mills, 9 converting lines production & key services.**

We have a strict  
**ZERO**  
DEFORESTATION  
policy and our suppliers are committed to  
**REPLANTING**  
**1,000,000** trees a day

## 100% Certified Sustainable

Environmental responsibility is critical to our business. As a socially, economically, and environmentally responsible company, we adhere to stringent Australian and international environmental laws, only sourcing our fibre from internationally certified suppliers;

- Independently certified by the world's largest forest certification program, PEFC (certifying two thirds of the worlds certified forests), guaranteeing products come from only virgin fibre and sustainably-managed plantation forests.
- Tracing the chain of custody from plantation tree to the finished product at all production facilities.
- PEFC chain of custody ensures that claims about product's originating in sustainably managed forests are credible and verifiable throughout the whole supply chain.
- Controlled sources under PEFC guidelines – verification that the product has originated from a source that has been legally verified according to requirements under PEFC guidelines.
- The Indonesian ecolabelling institute (LEI) chain of custody certifies that the product is produced from a source that is managed based on environmental values, economic principles and social norms.
- “Timber legality & traceability verification (TLTV) – an independent third-party verification that ‘assures forest management companies as well as everyone else working within the timber supply chain that timber products are produced in compliance with the relevant legality and chain of custody criteria.”
- Solaris paper is audited annually by SGS Australia for compliance.

We use Rapidly Renewable Fibre from fast-growing eucalyptus and acacia trees that reach full height and maturity in only 6-8 years.

This enables shorter harvest cycles yielding more paper from more trees on less land and in less time.

### That's true sustainability in paper!

For more information on PEFC chain of custody visit:  
[www.pefc.org/standards/chain-of-custody](http://www.pefc.org/standards/chain-of-custody)

**Solaris Paper® Time for change.**

In February 2013, APP transformed its forestry and pulpwood operations, outlined in its Forest Conservation Policy (FCP).

This is important, not only for the sustainability of Solaris Paper products, but for the preservation of natural forests and the communities that live within and around them.

APP is committed that the wood fibre for our pulp making operations comes from sustainably-managed forestry sources, which conserves areas of natural habitat and respects the rights of local communities.

To implement this commitment, we will:

- Ensure that wood suppliers maintain compliance with all relevant regional, national, and international regulations for sustainable forestry and land use management.
- Ensure that a multistage environmental assessment process is conducted prior to plantation development. The environmental assessment process will meet or exceed the standard required by national law.
- Ensure that wood is properly checked and verified as to legal origin and chain of custody before it enters the mills.

In April 2014, APP announced an initiative to restore and support the conservation of one million hectares of rainforest across Indonesia – an area more than four times the size of the Australian Capital Territory (ACT). The initiative was developed with input from a number of stakeholders, sets a new standard in the protection of the world's valuable forests and ensures the future protection of endangered species.

**Solaris Paper and APP are committed to promoting sustainable development, which is economically, socially and environmentally responsible.**

We are an active member of the United Nations Global Compact, committed to contributing to the UN sustainable development goals. We are compliant across our entire supply chain with the Australian Modern Slavery bill. We are also a member of Sedex, which ensures a responsible supply chain, with easy access to our annual reports.

We have a social responsibility to the communities in which we operate. In Australia, we are making a positive contribution to our local community by our contribution to Foodbank. We also regularly donate of top-quality Sorbent toilet paper, as well as other products, that help frontline charities to support vulnerable Australians. We also donate our tissue, cardboard and stretch wrap to local recyclers to be made into recycled products.

Proud to be a  
**Sedex**  
Member

# Livi®

**QUALITY COMFORT**  
YOU CAN TRUST

Livi® is well-known in world-class establishments, ranging from hospitals to resorts, restaurants to government institutions, corporate offices and schools, in 37 countries across 5 continents.

Livi®'s quality and scope of products has made it an ideal choice for establishments that value flexibility and cost-effectiveness without compromising on quality and hygiene.

### New, fresh and modern branding

In 2021, you will notice the Livi branding is changing due to a global brand refresh. These changes will phase in over the next 12 months. New branding includes:

- Basics name changing to Everyday
- Packaging change to reflect sub-brand style and colours
